## Italian wine classification

**DOCG:** The highest classification for Italian wines, introduced in 1980. It is used to ensure that a wine is controlled and follows a predetermined production scheme to receive the denomination. There are strict rules regarding the production of DOCG wines, monitoring yield limits, ripening of the grapes, vinification, procedures and specific aging.

**DOC:** A step below DOCG and created in 1963, quality control standards are less strict (but similar in style) than those applied to DOCG wines.

**IGT** classification was introduced in 1992, to allow a certain level of freedom to Italian winemakers. Before 1992, many wines did not qualify under the DOC or DOCG terms because they were made from grape varieties (or blends) not sanctioned under DOC or DOCG.

**VdT** is short for vino da tavola, wines that are approachable, suitable for everyday occasions.

# Sardegna

## Sardinia

Sardinia is the second largest island in the Mediterranean and is 200 kilometres off Italy's west coast. It is a unique region that has spent much of its recent history under Spanish rules. The Phoenicians were Sardinia's first foreign invaders and introduced winemaking to the island, but it was the Spanish, controlling the island from the 14<sup>th</sup> to 18<sup>th</sup> centuries, who contributed the most to Sardinia's wine production. The climate is Mediterranean, with short, mild, wet winters and long, hot, dry summers. With rugged mountains and dry plains, soil types vary from sandy clays in the south, the granite of Gallura in the north, to alluvial, gravelly soils around Oristano in the west. Today Sardinia is home to a unique range of grape varieties. Previously known for producing bulk, fortified and 'Meditazione' wines (including the famous Vernaccia di Oristano from the west coast), Sardinia is now known for its high-quality table wine from Vermentino, Cannonau and Carignano. Beyond these, lay an exciting range of lesser-known varieties such as Nuragus, Torbato, Monica and Bovale, adding diversity and interest to the Sardinian range.

## Vini spumanti sardi

### Sardinian sparkling wines

In Sardinia sparkling wines are produced from a variety of local and international grapes (if only in fairly small quantities) and can be dry or sweet. Made in both: 'Metodo Classico' (Champagne method) and 'Charmat' method (Tank).

### Torbato

Of undoubtedly Spanish origin, it is in Sardinia that Torbato was able to reveal its full potential, specifically in the Alghero region characterized by a warm and dry climate and by calcareous-clayey soils, rich in sand and iron, which give the wines strength and minerality. Great with lobster Catalana, try with bottarga, sea urchin, seafood and spicy dishes.

## Vernaccia di Oristano-Granazza

Vernaccia di Oristano is unique to Sardinia, unrelated to Italy's other Vernaccia and traditionally made from over-ripe grapes and in a similar style to Spanish Sherry, although rarely fortified. Great with bottarga.

2019	Sedilesu 'Granazza' - Barbagia IGT <sup>(0)</sup>	Mamoiada	110
2021	Sedilesu 'Granazza sulle Bucce' - Barbagia IGT <sup>(0)</sup>	Mamoiada	180

2019	Cantina di Mogoro 'Puisteris' - Sardegna Semidano Mogoro Superiore DOC	Mogoro	155
------	--	--------	-----

## Nuragus

Nuragus still is the most widely grown variety in Sardinia although mainly present in the provinces of Cagliari and Oristano. Dry or sweet, it can be paired with fried fish, crustaceans or molluscs, but also with tasty soups, always based on fish.

2019	Quartomoro NRG - Nuragus di Cagliari DOC	Arborea	135
------	--	---------	-----

## Nasco

Grape of ancient origin whose name derives from the Latin 'muscus', to describe the characteristic musky aroma of the refined wines, Nasco was on the brink of extinction and saved by a group of zealous growers from the province of Cagliari which in time also managed to obtain the DOC - Nasco di Cagliari. It is mostly used for the production of dessert wines, although some dry version can be consumed with rich fish and white meat dishes.

2021	Su'Entu 'Su'Aro' – Isola dei Nuraghi IGT <i>Nasco blend</i>	Sanluri	100

It is grown throughout the region, although the greatest concentration is found in Nuorese and Ogliastra. It is great with suckling pig and game dishes. Styles range from medium-bodied and soft, to rich, supple and powerful.

## Orange Wines

Orange wines are created when white wine grapes are left in contact with the must during fermentation: the longer the contact the deeper the colour of the wine. The result are unique expressions of each varietal.
